Total: 79

Sites Transferred During 2001

The following site was transferred from NJDEP's Division of Publicly Funded Site Remediation to the Division of Responsible Party Site Remediation between January 1 and December 31, 2001. The site was transferred after the responsible party formally agreed to conduct the investigation and/or cleanup. The Division of Responsible Party Site Remediation and/or USEPA will supervise the remedial work conducted by the responsible party to ensure that the appropriate cleanup objectives are met.

Baldwin Enterprises

Vernon Township, Sussex County

The Baldwin Enterprises facility is an active bus company and a garage/repair shop. It has been identified as a possible source of volatile organic contamination that has been detected in several nearby public supply wells. Areas of concern include underground waste oil and fuel storage tanks and areas of soil contamination from past spills. The owner of Baldwin Enterprises began a Remedial Investigation to delineate contamination in the soil and ground water under a Memorandum of Agreement (MOA) with NJDEP's Division of Responsible Party Site Remediation but stopped before completing the requirements of the MOA. The site was transferred to NJDEP's Division of Publicly Funded Site Remediation in 2001 to continue the investigation of the site. However, the responsible party agreed to resume investigation of the site and the case was transferred back to the Division of Responsible Party Site Remediation later that year.
